TOMÁS DE LA CRUZ, GUERINEAU

FULL STACK DEVELOPER

Birth: June 22, 1995

San Miguel de Tucumán, Tucumán, Argentina

"

I'm Tomás Guerineau, an accomplished Full Stack Developer with several years of experience across diverse projects. Currently, I'm working at WeKnow Inc., implementing Next.js, TypeScript, React.js, Node.js, Meteor.js, MongoDB and sometimes Drupal, SQL, and PHP. My technical expertise spans from developing corporate websites, mobile applications, web platforms to freelance web development for startups. Dedicated to continual learning, I readily embrace new technologies, constantly work on my English fluency, and pursue professional growth relentlessly.

- Storybook - Styled component - Atomic Design.
- Tailwind - Bootstrap - Material UI - Ant Design.
- jQuery - Docker - Linux - REST API - Adobe Illustrator and Photoshop (Ai, Ps) - Figma.

WORK EXPERIENCE

- **WEKNOW Inc.** As Full Stack Developer
  August 2021 - Currently working

  I worked as a Full Stack developer in international teams for a client and also in an internal platform and the Company's own sites.

  The [company's website](), built (in 2023) with state-of-the-art technologies like TypeScript, Next.js, Tailwind, Styled Components, and incorporating Atomic Design principles.

  (Currently working on this project) The company's platform provides tools for different areas of the company (Recruitment, HR, Management, Clients/projects, employees, etc), and I take care of maintaining it, creating new features and solving possible bugs. For it I use React.js, Node.js, Meteor.js, MongoDB and Sass.

  For the Phase2 client I worked as Full Stack in different projects with international teams, in them I used Drupal, PHP, SQL, Twig and Sass. The projects are:
  - Multiple E-commerce site (multiple clients and translated into all languages), I worked on maintaining the site for 3 months, making changes requested by clients and solving bugs that the site had.
  - We created in +2 months a new site for a company that needed to train its employees, on the site you can see courses and documentation. On this site I was able to create a custom module and use multiple services.
  - We created a new site for a museum in 2 months, where you can see their works and also view/register for their events.

- **App for the foundation "Yo Soy La Inmaculada Madre Del Divino Corazón Eucarístico de Jesús".**
  I created from scratch a new application for Android and IOs. (Stage 2 in progress)
  - http://onelink.to/kjgyhz (Open with a cell phone).
  Built with React.js and converted into an App by the guys at https://convertify.app/es .

- **Freelancer** creating web pages for companies and ventures (2018 - 2019).
  I worked on them alone. I made them with HTML, CSS and JavaScript.
